Frank,

Thanks for stopping by and taking the time to hand deliver the Christmas card and gift...I really appreciate it.

I enjoyed working with you and company during 2011. We had a pretty large project, at least for us that you and your guys did a excellent job on and I know we cannot be the easiest company to work with when it comes to projects and your group was very patient with us. It is all in the name of safety though and I do know you understand that.

Thanks again and hopefully we will have a great 2012 as well as you and your company!

Regards,

Ricky Stowe
